

In-Plant Handlers with Storage Container Item 37518 (18-3/8 x 12-3/8 x 12-3/4 inches)

Features

- Shields ESD sensitive items from charge and electrostatic discharges (with lid in place).
- Provides ESD and physical protection for ESD sensitive circuit boards.
- Impregnated corrugated material; greater durability than coated or printed material.
- Constructed with double sides, double (boxes under 6" deep) or triple (boxes over 6" deep) ends, and single (boxes under 6" deep) or double (boxes over 6" deep) thickness bottom for greater durability.
- Static dissipative surface of 10E6 - 10E8 ohms - minimizing the potential of rapid discharge or sparking.
- Buried shielding layer minimizing the potential of sloughing and rub-off contamination.
- Made from 100% recycled material, and is 100% recyclable
- No tooling costs.
- Easy assembly without the need for tape, glue, or staples.

Item No.	Cell Size W x L x Th
37309	12-3/4 x 7-3/4 x 1
37307	12-3/4 x 7-3/4 x 2-1/4
37308	12-3/4 x 16 x 1
37306	12-3/4 x 16 x 2-1/4
